Is it unfortunate to take this matter up only immediately so far as the conservancy establishment and lighting are concerned. I would suggest that it is inadvisable to attempt a rebate of Board taxes. I can understand the temporary need under such an addition to light and new roads, to be entailed by the extensions pending consequent increase in revenue, but I cannot see my way to recommend a permanent increase in the establishment on that account. I cannot also take the statement that it is necessary to create new offices to supervise the conservancy operations

and also for the maintenance of the Same at Rs 1-0-6 each per mensem. I consider the above necessary for the proper sanitation of the extensions where on account of the insufficiency of the scavenging establishment and want of carts, the sweepings of the streets &c are being thrown in pits near the dwellings which is highly objectionable. The cost may be debited to the sum of Rs 30,000/- applied for in my letter No 7720 dated 26th April 1900 for the said extensions and for the improvement of the Bangalore City

Should be read as Rs 50,000/-
